

## PLAN AHEAD FOR THE 2008 COMPANALYSIS COMPENSATION SURVEY

With the 2008 Greater San Francisco Bay Area Compensation Survey around the corner, we are considering a number of additions to the survey and are asking for feedback from all recent participants and purchasers. A similar effort last year resulted in highly positive rating for each of the 14 criteria listed, from ease of data entry to usefulness of the survey report.

The only survey reporting Bay Area pay data across all industry groups, this valuable resource includes data on over 70 core staff positions with detailed information about base salaries, variable pay data, and employee benefits.

The 2008 survey will be priced to encourage a high level of participation and participants will be eligible to purchase the report at a significant discount. The early payment discount makes survey participation even more of a bargain!

Remember these dates:

May 1, 2008	<a href="http://www.salarysurveys.com">www.salarysurveys.com</a> available for data entry
July 1, 2008	early payment discount deadline
August 1, 2008	data entry deadline
September 2008	report available

Please contact Rita Haronian at [rharonian@companalysis.com](mailto:rharonian@companalysis.com) or 510-763-3774 x100 for more information about the CompAnalysis Greater San Francisco Bay Area Compensation Survey.

*I find the Greater San Francisco Bay Area Compensation Survey a great tool to benchmark both salaries and benefits! You're able to compare salaries to a specific part of the Bay Area, not just California or the West Coast. The survey also benchmarks "hot issues" in the Bay Area so you are able to address them before they become "hot issues" with your company.*
